Enedelia Garcia-Romero

Atlanta, Georgia | 229-939-3400 | enedelia.garcia.romero@gmail.com

Computer Science Student | AI Education | Campus Leadership | Technology Community Building

Education

Georgia State University **Atlanta, Georgia**
B.S. in Computer Science; Cybersecurity Certificate *Expected May 2028*

Relevant Areas: Artificial Intelligence, Cybersecurity, Software Engineering, Programming, Robotics, Web Development

Leadership & Campus Engagement

Resident Assistant **2025 – Present**
Georgia State University Housing – Piedmont North *Atlanta, Georgia*

- Designed and facilitated a **3-hour Career & Academic Roadmap Café serving approximately 80 first-year students**, combining career exploration, academic planning, technology, and individualized support.
- Introduced students to **generative AI agents and AI-assisted research workflows**, helping participants explore career paths, majors, minors, certificates, and alternative academic pathways.
- Guided students in developing individualized academic and career roadmaps using **Smartsheet, university resources, and AI-assisted planning tools**.

President, Robotics Club **2026 – Present**
Georgia State University *Atlanta, Georgia*

- Lead technical workshops, projects, meetings, outreach initiatives, and member programming across **robotics, programming, electronics, and mechanical design**.
- Develop hands-on workshops based on member interests and feedback, including **Python programming, soldering, electronics, robotics hardware, and mechanical building**.
- Coordinate workshop content, materials, demonstrations, project planning, and peer instruction while making technical concepts accessible to students at different experience levels.

Vice President, Robotics Club **2024 – 2025**
Georgia State University *Atlanta, Georgia*

- Supported technical projects, workshops, member engagement, outreach, inventory management, and organization planning before advancing to Club President.

Member, PROG GSU **2025 – Present**
Georgia State University *Atlanta, Georgia*

- Assist in organizing **technology networking events, social programs, and hackathons** designed to strengthen Georgia State's student technology community.
- Support event logistics, participant engagement, outreach, and programming that connect students across computer science, cybersecurity, engineering, and related fields.

Cybersecurity Study Session Facilitator **2026 – Present**
GSU Cybersecurity Club *Student Organization*

- Facilitate peer study sessions for students preparing for **Microsoft cybersecurity certifications**, using Microsoft Learn resources, certification objectives, practice material, and collaborative review.
- Explain security concepts through structured discussion and beginner-friendly instruction while helping students identify relevant certification and learning pathways.

Research & Technical Experience

Undergraduate Researcher – Math Path SURS **Summer 2026**
Georgia State University *Atlanta, Georgia*

- Designed and analyzed a **privacy-conscious low-vision obstacle detection aid** using ultrasonic sensing to support safer environmental navigation.
- Presented research findings through a university research poster, communicating technical design decisions, limitations, and accessibility considerations to faculty and student audiences.

Skills

AI & Productivity: Generative AI tools, AI-assisted research, academic planning, career exploration, Microsoft Learn, Microsoft 365, Smartsheet

Programming: Python, Java, JavaScript, HTML/CSS, React, Node.js, Express, Firebase, Git

Leadership & Engagement: Event planning, workshop facilitation, public speaking, technical instructions, peer education support, people management, campus outreach, community building, bilingual English and Spanish
